Belal Mohammed Jlelati

Geomatics Engineer
00966540709631 | Jeddah, Saudi Arabia | belal.jlelati@gmail.com | Nationality: Syria | PMI Certified | LinkedIn

Career Objectives

Geomatics Engineer and PMI-certified professional skilled in spatial analysis, data integration, and structured project execution. Focused on delivering geospatial solutions that align with project objectives, timelines, and quality standards.

Experiences

Geospatial Data Analyst | Makmoura Platform – *Remote/Part-Time* *Apr* 2026 - now

Contributing to the development of Syria's Smart Addressing System, through:

- Building a geographic database covering all Syrian governorates using Deep Learning Algorithms.
- Developing a smart Geocoding system linking addresses to precise coordinates.
- Ensuring geospatial data accuracy to support urban planning.

Geospatial Data Analyst | Real Estate Registry (A PIF Company) – *Riyadh* *Sep 2024 – Aug 2025*

- Contributed to the *first registration project* for the *Real Estate Registry* as a member of *Land Administration Services team* as part of my contract with *Atheeb Integrated Solutions Company*.

Internships

GIS Specialist | Vice Presidency for Projects of King Abdulaziz University – MapDev.sa Collaboration - *Jeddah* *Feb – Apr 2026*

- Converted CAD building plans into GIS datasets using ArcGIS Pro software.
- Built an indoor geospatial database for multi-floor buildings.
- Supported integration of spatial data into a project management dashboard.

GIS Specialist | Yasser Al-Oqbi Engineering Consultant - *Jeddah* *Jun - Aug 2023*

- Digitized Projects Lands & Making Static Maps Using ArcGIS Desktop.
- Built Interactive Web Maps Using ArcGIS Online & Google Maps.
- Programmed an Interactive Web Map Using Python.

GIS Specialist | King Abdulaziz Endowment for Al-Ain Al-Azizia - *Jeddah* *Jun - Aug 2022*

- Accomplished tasks on ArcGIS (Georeferencing, Layout, Digitizing, Statistics, Transfer Attribute).
- Designed and presented a presentation about summary of intern to present to human resources.

Education

- **Bachelor's in Science of Geomatics** - *Jeddah* *Sep 2019 - Jun 2024*
  Faculty of Architecture and Planning, King Abdulaziz University GPA : 4.64 out of 5

Courses & Professional Certifications

- **Geospatial Artificial Intelligence (GeoAI),** GeoFusion *Oct 2026*
- **Detecting LULC Changes & Predicting Urban Expansion using Satellite Imagery & AI,** Tamkeen Alhadaf *Oct 2026*
- **Mapping and Spatial Data Modeling with R,** GeoFusion *Oct 2026*
- **Geospatial Data Quality & Governance,** GeoFusion *Jul 2026*
- **Certified Associate in Project Management (CAPM),** PMI *Nov 2025*
- **ArcPy Essentials**, Esri *Jul 2024*
- **ArcGIS Pro Basics**, Esri *Feb 2024*
- **ArcGIS Online Basics**, Esri *Feb 2024*
- **Microsoft Excel 2019 / 365**, Earn and Excel *Feb 2023*
- **Getting Started with Mapping and Visualization,** Esri *Jan 2023*

Academic Projects

Geographic Information System Projects

- **Graduation Project || Allocate Optimal Locations for EVCSs in Major Saudi Cities Using GIS-Based AHP: Case Study in Jeddah.** *Jan – May 2024*
  Performed GIS-based AHP suitability analysis to identify optimal locations for sustainable electric vehicle charging stations.
- **Developing & Creating TGSI for Blind Pedestrians at Roshan Waterfront in Jeddah.** *Mar – Jun 2023*
  Designed GIS-based tactile ground surface indicator paths to improve accessibility for visually impaired pedestrians.

Surveying Projects

- **Assessing the Quality of Low-Cost "Moasure ONE" Instrument at Scale of 1:500 for As-built Plans.** *Sep – Dec 2023*
  Assessed and compared the quality of low-cost "Measure ONE" instrument with total station for as-built plans.

Remote Sensing Projects

- **Change Detection in Land Cover of Jeddah City After Removing Slums Using Remote Sensing Technique.** *Jan – Mar 2023*
  Applied Classification for land cover, compare urbanity for 2019-2022 by spatial analysis for statistics.

Skills

- **Software:** ArcGIS (Pro, Desktop, Online), Autodesk (AutoCAD, Civil 3D), Envi, Agisoft Metashape, Microsoft Office.
- **Hardware:** Total Station, GPS, Auto leveling, Moasure One.
- **Coding:** Python, HTML, CSS.
- **Soft Skills:** Teamwork, Fast learner, Leadership, Problem solving, Communication, Critical thinking, presentation.

Memberships

- Saudi Council of Engineers, membership No. 1167179
